Description of Training Approach (for "Complete EMR Offering")

- **Workflow Analysis:** establishing & documenting how the clinic currently operates
- **Training Needs Analysis & Plan:** in conjunction with the workflow analysis and the PITO specifications for training, a training plan is agreed with the clinic
- **Basic Training delivery:** designed to enable the clinic to use the system immediately for daily operations, 'hands on' training is provided for delegates in small groups (or clinic-designated Trainer), reinforced with validation exercises, training handouts & user manuals

Description of Ongoing Support Services (for "Complete EMR Offering")

- **Field Operations/Technical Operations:** support clients through planning, training, clinic implementation and post-implementation on-site support
- **Support Services:** dedicated personnel readily available by phone or email at any time
- **EMIS PCS Common Room/ECR Tracker:** allows users to access User Guides, FAQs, communication updates or the status of their requests from within their EMIS Inc. EMR
- **National/Provincial User Groups:** provide peer-to-peer EMIS Inc. PCS support and advocacy through an independently governed and managed organization
