Description of Training Approach (for "Complete EMR Offering")

- **Workflow Analysis – Establishing & documenting how the clinic currently operates**
- **Training Needs Analysis & Plan – in conjunction with the workflow analysis, and the PITO specifications for training, a training plan is agreed with the clinic.**
- **Basic Training delivery – Designed to enable the clinic to use the system immediately for daily operations, 'hands on' training is provided for delegates in small groups (or clinic-designated Trainer), reinforced with validation exercises, training handouts & user manuals.**

Description of Ongoing Support Services (for "Complete EMR Offering")

- **Field Operations/Technical Operations - support clients through planning, training, clinic implementation and post-implementation on-site support**
- **Support Services - dedicated personnel readily available by phone or e-mail**
- **EMIS PCS Common Room/ECR Tracker - allows users to access User Guides, FAQs, communication updates, or status of their requests from within their EMIS Inc. EMR**
- **National/Provincial User Groups - provides peer-to-peer EMIS Inc. PCS support and advocacy through an independently governed and managed organization**
